THE MILWAUKEE RADIO AMATEURS CLUB, Inc.

February 20, 1930.

M.R.A.C. EFFICIENCY CONTEST.

Purpose: To promote the building of modern transmitters, receivers and other apparatus used in the modern amateur radio station.

To increase the attendance at the meetings and bring in new members.

To help increase the Club's Publicity.

Prize: A special Transmitting Tube donated by Herbert F. Wareing.

Rules: 1. All members in good standing will be allowed to enter this contest.

2. Any piece of apparatus ordinarily used in an Amateur radio station which has been manufactured or assembled by a member of the Club may be entered in this contest. The member must have the apparatus on display at the Club and must deliver a talk on the manufacture and operation of the apparatus. Complete diagrams and photographs(if possible) should be furnished the Chairman for Publicity purposes.

3. Names of entrants must be filed with the Chairman of the Club at least two weeks in advance of the date of the talk.

Awarding of prize: A special night will be chosen by the members of the Club which will be known as "Prize Award Night" (probably around the first of June). On this night each member who has given a talk will bring his piece of apparatus to the club and a vote will be taken by ballott, each member voting for the man he thinks should be awarded the prize.

Points to consider:
Efficiency.
Originality of design.
Workmanship.
Completeness of description.

Signed by the committee.
